AMANDA THAMASOOK

Amanda Thamasook is a Master of Environment student at the University of Melbourne, focused on climate change mitigation, adaptation, and sustainable business practices.

She brings experience in project management, strategic communication, and stakeholder engagement, having previously led an international cage-free accountability program in Asia.

Amanda is eager to apply her skills in ESG evaluation and reporting to deliver a real and sustainable impact.

AREAS OF INTEREST

Amanda has a special interest in the following sustainability areas:

Blue Economy: As the global economy increasingly turns to the oceans for resources, energy, and trade, the need for a sustainable approach to marine and coastal ecosystems has never been more critical. The blue economy offers a powerful framework for harnessing the vast potential of ocean resources while preserving the health of our oceans for future generations...

Circular Economy: As the global economy faces growing challenges of resource depletion, waste accumulation, and environmental degradation, the need for a more sustainable model has never been clearer. The circular economy offers a transformative solution, shifting the focus from 'take, make, dispose' to 'reduce, reuse, recycle,' and ultimately, 'regenerate'.

Sustainability Reporting: Amanda is a Trainee / Graduate Sustainability Consultant, and she can help organizations develop comprehensive ESG reports that not only meet regulatory requirements (ASRS / AASB S1 / S2 ...) but also demonstrates a genuine commitment to environmental stewardship, social responsibility, and strong governance.

Sustainable Development Goals (SDGs): In addition to SDGs relating to climate change (SDG 13,14, &15), Amanda has a strong focus on the following SDGs:

- i) SDG 2 – Zero Hunger.
- ii) SDG 4 – Quality Education.
- iii) SDG 10– Reduced Inequalities.

KEY SKILLS

Project Management: Managed a large-scale international enforcement project, coordinating teams and ensuring timely execution

Communication and stakeholder engagement: Created blog posts, social media content, and annual reports for Sinergia Animal by ensuring clear, engaging, and consistent messaging across platforms. As well as developed and maintain stakeholders and client relationships

Software and applications: CRM, Google Workspace, Canva, Microsoft 365

NEXT STEPS

Book a commitment free appointment today to discuss your sustainability challenges, regulatory obligations, or strategic priorities, and discover how a tailored, commercially focused ESG approach can support your organisation's success.

Whether the sustainability challenges and priorities in your business are - Regulatory-Driven, Boardroom Support, Capability and Resource Gaps, Data Readiness Bottlenecks, Need for Targeted Investments,..., **Finoptis Consulting Services** can help you move forward with clarity and confidence.
