TAMSIN STEVENS

Tamsin Stevens is a Sustainability Consultant at Finoptis, specializing in tailored ESG strategies.

Her expertise covers integrated reporting (GRI, SASB, TCFD) and certifications like B Corp. Tamsin's track record includes leading ESG programs at Accsys and driving Dryrobe® to B Corp status, focusing on investor alignment and sustainable roadmaps...

Tamsin has completed a Master of Environment Science from the University of Southampton, UK.

AREAS OF INTEREST

Tamsin has a special interest in the following sustainability areas:

Circular Economy: As the global economy faces growing challenges of resource depletion, waste accumulation, and environmental degradation, the need for a more sustainable model has never been clearer. The circular economy offers a transformative solution, shifting the focus from 'take, make, dispose' to 'reduce, reuse, recycle,' and ultimately, 'regenerate.'

DeCarbonisation: As the world confronts the realities of climate change, the transition to a low-carbon economy has become a critical imperative for businesses, governments, and society alike. Decarbonization, the process of reducing carbon emissions across industries, presents both a moral and economic opportunity to mitigate environmental impact while unlocking significant long-term business value.

Sustainability Reporting: Tamsin is a fully qualified Sustainability Consultant, and she can help organizations develop comprehensive ESG reports that not only meet regulatory requirements (ASRS / AASB S1 / S2 ...) but also demonstrate a genuine commitment to environmental stewardship, social responsibility, and strong governance.

Sustainable Development Goals (SDGs): In addition to SDGs relating to climate change (SDG 13,14, &15), Tamsin has a strong focus on the following SDGs:

- i) SDG 2 – Zero Hunger.
- ii) SDG 3 – Good Health & Well-Being.
- iii) SDG 10 – Reduced Inequalities

PROFESSIONAL EXPERIENCE & EXPERTISE

Tamsin's expertise covers ESG strategy, integrated reporting, and company certifications such as B Corp, with a proven record of delivering investor-aligned frameworks including GRI, SASB, TCFD, and S&P CSA.

Alongside this, she has a broad foundation across sustainability, demonstrated through a published research paper (The influence of environmental awareness on inducing lower carbon dietary change in the UK), the implementation of a university wide recycling scheme, and leading AECOM's corporate social value strategy.

Tamsin previously worked as ESG Manager at Accsys, a listed modified timber company, where I led the group wide ESG programme, managing stakeholder engagement, ESG data, sustainability certifications, and disclosures critical to investor confidence.

She also has extensive experience in environmental and social assessment, including EIA, SEA, EMS and EqIA, contributing to national, regional, and local plans, policies, and development projects across a variety of sectors.

Earlier in her career, Tamsin managed internal sustainability strategy within the outdoor apparel industry and successfully led dryrobe® to achieve B Corp certification.

NEXT STEPS

Book a commitment free appointment today to discuss your sustainability challenges, regulatory obligations, or strategic priorities, and discover how a tailored, commercially focused ESG approach can support your organisation's success.

Whether the sustainability challenges and priorities in your business are - Regulatory-Driven, Boardroom Support, Capability and Resource Gaps, Data Readiness Bottlenecks, Need for Targeted Investments,..., **Finoptis Consulting Services** can help you move forward with clarity and confidence.
